

ALULA HARDWARE SETUP GUIDE FOR BAT-Connect

Follow these steps **BEFORE POWERING THE DEVICE**

If you are not a registered dealer with Alula, please visit www.Alula.com/pro-signup to register, or call 1.888.88.Alula.

You must first register the customer and device on AlulaConnect.com

Once logged in to AlulaConnect.com, create a new account and register the BAT-Connect to the account using the following process:

1. Create Customer Account

Enter your customer's information such as username, password and vital information

2. Register Hardware

Add device "Friendly Name", i.e. "Smith Home"

Enter MAC ID and CRC found on inside cover of BAT-Connect

3. Notification Setting

Set customer's notification preferences

4. Central Station

Add Central Station connection type, Caller ID number, and account number

Follow instructions on reverse side BEFORE POWERING THE DEVICE

1

Register device and customer account information (see reverse side)

2

Connect to panel according to install guide and site configuration

3

Power and verify operation of sensors/zones and Central Station reporting functions

4

Download apps for an interactive experience
