The **RE151 Hidden Panic** can arm, disarm, and generate panic signals for the security system.

**Features**
- Hidden mounting
- 1-button arming and disarming
- Large, easy to differentiate button
- Mounts in hidden locations via VHB™ tape or screws
- Strong, reliable RF signal
- 5-year battery life

**Enrollment**
- Refer to the control unit installation manual

**Options for sending an Enrollment Signal**
- Put the control panel in RF learning mode
- Press both the Lock & Unlock buttons simultaneously for 3 seconds
- OR
- If using a downloader in ID entry mode
  - Enter the download ID in the device (see label located on unit’s back or in unit)

**Battery Replacement**
- Insert screwdriver to open
- Unscrew circuit board from housing
- Remove old battery and place new CR2032 battery positive side up

**Pro Tips**
- **3M™ VHB™ Tape** works well if the surface is properly prepared and firm pressure is applied for over 10 seconds.

**Surface Preparation**
- Clean the surface
- Ensure the mounting surface temperature is above 50°F

*Use the panel installation guide to verify proper system setup.*
