PINPad is a simple arming station that allows local control of the security system. It is battery powered and requires no installation tools. Many can be installed throughout the home to provide convenient system control.

**Features**
- Secure 4 digit disarming
- Supports 1-button arming
- Small yet comfortable
- 5 year warranty

**Enroll** by placing the panel into wireless enrollment mode and then sending an enrollment signal from the PINPad.

**Option for sending an Enrollment Signal**
- Press both **STAY** and **AWAY** buttons simultaneously

To change the access code, do these steps:
1. Enter current 4-digit access code - the default code is 1234.
2. Within 4 seconds, press and hold the "1" and "3" keys simultaneously. After 3 seconds, red LED will be lit.
3. Enter new 4-digit access code. The green LED will be lit. Note the new code. (The access code cannot be reset without the current access code).

**Install** using the 3M™ VHB™ tape on the back of the PINPad to adhere it to a wall.

- See Pro Tips for recommendations about using 3M VHB tape.
- Two #4 or #6 screws may be used instead of, or in addition to, the 3M VHB tape.
- The mounting plate can also be rotated 180° for table top use (See Pro Tips).

**Operate** using the PINPad buttons. The PINPad LED will blink when a button is activated.

**Disarm** by entering the 4 digit user code on the number pad.

**Arm Away** by pressing the **AWAY** button until the PINPad LED flashes red.

**Arm Stay** by pressing the **STAY** button until the PINPad LED flashes red.

**Trigger a panic alarm** by pressing the **STAY & AWAY** buttons together until the red PINPad LED flashes repeatedly.

Use the panel installation guide to verify proper system setup.
**Pro Tips**

**3M™ VHB™ Tape** works great if the surface is properly prepared and firm pressure is applied for over 10 seconds.

**Surface Preparation**
- Clean the surface
- Ensure the mounting surface temperature is above 50 °F

**Reversible mounting plate** allows for easy use on a wall or table. For table top use, remove and reverse the mounting plate and install the rubber feet supplied.

**To replace the battery** insert a screwdriver into the latch slot on either side of the PINPad and pop the cover off the wall plate. Replace the battery and reinstall the cover onto the wall plate.

Specifications subject to change without notice.

**WARRANTY**
Alula will replace non-portable products that are defective in their first five (5) years, and portable products that are defective in their first two (2) years.

**IC NOTICE**
This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:
(1) This device may not cause interference, and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux cnr d‘Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes:
(1) L’appareil ne doit pas produire de brouillage, et
(2) L’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.

IC: B310A-RE152

**FCC NOTICE**
This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference that may be received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by Alula could void the user’s authority to operate this equipment.

FCC ID: USX-RE152
