**The RE620 Sensor Repeater** is a battery backed up device that extends the wireless range of Connect+ compatible sensors.

**Features**
- Extends the range of Connect+ wireless sensors
- Rechargeable Backup Battery
- Cover and Wall Tamper
- 5-Year Warranty

**Enroll** the repeater itself by placing the panel into wireless enrollment mode and then tampering the repeater. Alternatively, the repeater can be enrolled using the Connect+ Installer App or by entering its 8-character serial number on the interactive service provider’s web portal.

**Install** by mounting the repeater in the desired location using the mounting screw holes. Then connect the power supply to the repeater.

**Set the repeater protocol** by changing both the panel and sensor selection knobs to position 8 (Connect+).

**Note:** This repeater is for Connect+ devices only. Other sensors and protocols are not supported.

**Enable configuration mode** by pressing and releasing the “Configure” button. The repeater will beep and the yellow LED will illuminate to confirm configuration mode is enabled.

**Configuration Mode Tips**
- Configuration mode ends automatically when the cover is closed, the “Configure” button is pressed again, or 30 minutes after the last action.
- Configuration mode is locked out 24 hours after power up. To re-enter configure mode, the repeater must be power cycled by removing both the 12VDV input power and backup battery for at least 5 seconds.
- When re-entering configuration mode, previously learned sensors are retained.

**Learn Sensors** to be repeated by placing the repeater into configuration mode and tripping the desired sensors.

- When repeating life safety devices, two repeaters MUST BE used in parallel.
- The repeater will beep after learning each new sensor.
- Sensors not learned into the repeater **will not** be repeated.

*Use the panel installation guide to verify proper system setup.*
WARRANTY
Alula will replace all non-portable products that are defective in their first five (5) years and all portable products that are defective in their first two (2) years.

TRADEMARKS
Alula and Connect+ are trademarks owned by Alula Holdings, LLC.

IC NOTICE
This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:
(1) This device may not cause interference, and
(2) This device must accept any interference, including interference that may cause undesired operation.

Le présent appareil est conforme aux normes d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes:
(1) L’appareil doit ne pas produire de brouillage, et
(2) L’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.
