

doorbell

Stay connected to what matters most

The Alula Video Doorbell helps you keep tabs on what's going on at your doorstep. View live and recorded video and interact with visitors at the front door. Experience intelligent notifications with a camera that knows the difference between people, vehicles and pets.

Enjoy the peace of mind that comes with knowing what's happening at the place that's most important to you.

See who's at the doorstep

Always know who's at the front door whether it's something great like the kids coming home from school or something not so great like the wrong person trying to make off with a package.

Live view

Want to check in on the house from your desk at work? See what's happening in real-time with a live stream of your front porch.

Smart object recognition

Know the difference between people, vehicles and pets with a doorbell camera featuring AI technology.

Recorded video

View the entire day's activity with an easy-to-use timeline view of all recently recorded videos. Plus, easily download and share recorded video footage with others.

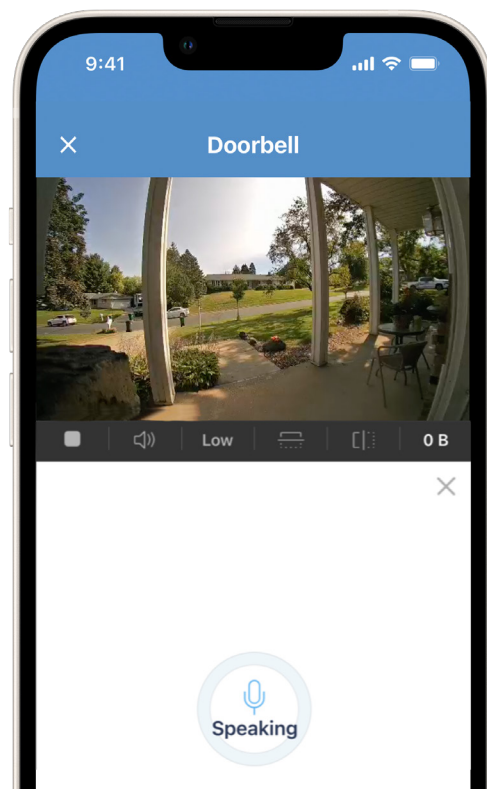

Contact your Alula dealer to add a video doorbell to your service package

Modern, smart control

Control your doorbell from Alula's mobile app and from 7" dedicated touchscreens. The controls are the same on both which makes using your new doorbell a breeze.

Interact from anywhere

Use the integrated microphone and speaker to hear and speak with visitors from the 7" touchscreen or the convenience of your phone.
