## A view of your home wherever you are

Alula helps you stay connected to what's going on in and around your home. View live and recorded video and interact with visitors at the front door. Leverage intelligent notifications with cameras that know the difference between people, vehicles and pets. Deter unwanted visitors with outdoor cameras that will sound an alarm when motion is detected.

Rest easy with a window into what's happening at the place that's most important to you.

### Live View

Want to check in on the house from your desk at work? See what's happening in real-time with a live stream from each camera.

### Recorded Video

View the entire day's activity with an easy-to-use timeline view of all recently recorded videos. Plus, easily view, download and share recorded video footage with others.

### See Who's at the Doorstep

Always know who's at the front door whether it's the kids coming home from school or a porch pirate trying to catch you unaware.

### Audible Motion Alarms

Deter unwanted visitors with outdoor cameras that will sound an alarm (and start recording video) when motion is detected.

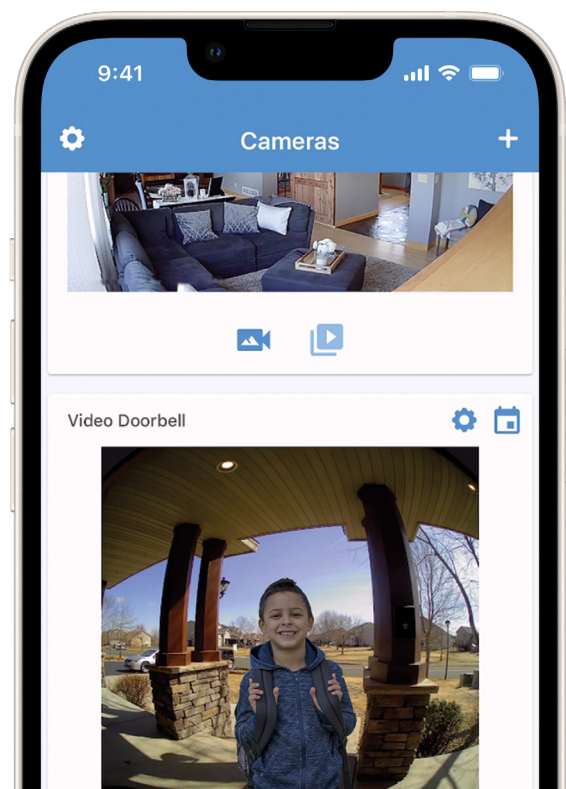

**Contact your Alula dealer to add cameras to your service package.**

### Modern, Smart Control

Control cameras from Alula's mobile app and from 7" dedicated touchscreens. Plus, the controls are the same on both which makes using your cameras a breeze.

### Smart Object Recognition

Know the difference between people, vehicles and pets with cameras featuring AI technology.
